_____

**Anamidraya** Name of the Anunnaki's matrix.

---

**I. Definition and introduction:** The Anunnaki's Matrix is extremely complicated, because it is written in codes, symbols, geometrical forms, chemical formulas, theorems, "and in all the languages that have existed, still exist, and will be invented in the future after 2022," said the Ulema.
In other words, it is a cosmic library, archives, and depository of all the knowledge and events of 5 billion years, the estimated date of the beginning of Earth.

*** *** ***

**II. Anamidra and Earth Matrix:** Anamidra is the name of the Anunnaki scientist who monitors the Earth Matrix, called Anamid-Raya, also Anid Ariya.
Anamidra provided fascinating and mind-bending information in this matrix that have captivated academicians and leading scientists in the Eastern and Western Hemispheres. Included in his data are detailed descriptions and explanations of: **1**-Primordial bio-engineering of terrestrial life**-**forms (Elements, nature, animals, and humans); **2**-Building blocks of life, and how they acted like cells to produce life on earth; **3**-DNA's fifth unknown element.
In addition to the DNA, the Anunnaki's matrix gives detailed information about the RNA, which is a ribonucleic acid, a close cousin of deoxyribonucleic acid or DNA.
**4**-RNA (Humans and non-humans) and life evolution; **5**-The origin and the genetic creation of the human races by the Anunnaki.
**6**-The Earth-made human creatures.
**7**-The Space-made human creatures.

**8**-Metabolism and the oceans-made human creatures.
**9**-Man-made humans and reverse engineering of the human brain.
**10**-The Anunnaki's "Conduit".
**11**-The creation of a new super human race in 2022: One of the coded "Cadrans" of the Anunnaki's matrix, stunning information and dates about the creation and origin of the human races, were given and written in Anak'h.
A primitive form of Ana'kh was known to the early Phoenicians who lived in Tyre, Sidon and Byblos.
**12**-The origin and the genetic creation of the human races by the Anunnaki: The Anunnaki's matrix mentioned clay as one of the primordial ingredients or elements they have used to create the human race.

*** *** ***

**III. Anamidra explains what kind of clay, the Anunnaki used to create Man:** One of the most striking revelations of Sinhar Anamidra is his explanation of the "Clay" used by the Anunnaki to genetically create the first human species.
The Anunnaki's matrix mentioned clay as one of the primordial ingredients or elements they have used to create the human race. It is extremely important to understand the real meaning of the word clay.
Anamidra explained to the Ulema, that "Clay" is not what everybody understood or thought to be, from reading the translations of the Sumerian texts.
It is not the earthly clay found in ancient Sumer near the Tigris and Euphrates banks. The Anunnaki's matrix explained and defined it very differently.
Judaism, Christianity and Islam got hooked on clay.
Scholars who have translated the Sumerian texts and/or interpreted them made a huge mistake when they referred to clay as the mud or dirt substance the Anunnaki found in ancient Iraq, and mixed it with their DNA to create mankind…" said Ulema Govinda.

The Anunnaki used a plasmic liquid that coagulated very rapidly, and short after, the coagulation took the apparent physical properties of the clay.
But the substance was not dirt, rather plasmo-organic.

*** *** ***

**IV. Anamidra explains the creation of Man from cosmic clay:** Anamidra told the Ulema, that some of the very early human races were not created by the Anunnaki. The earliest human-animal species were originally created in space, and this included many animals and various plants.
The life of the earliest human-animal species started within the clay found inside comets.

*** *** ***

**V. Anamidra spoke about the early human species who lived underwater:** Anamidra also spoke to the Anunnaki Ulema about the existence and origin of early human-like creatures who lived at the bottom of the oceans. He explained that “one of the earliest life-forms on planet Earth began at the very bottom of the oceans, where metabolism originated through “Mai-ai” (Water) Metabolism created an early human-like form.
Those creatures had a human skull, two eyes without retina, two legs and four long arms, but no nose, no ears, and no hair on their bodies.”
They were called the Basharma’h. (Bashar means human race, and Ma’h means water.) *** *** ***

**VI-The Earth-made human creatures:** The early quasi-human beings were created from a single cell.
The Ulema said that the Anunnaki’s matrix mentioned earth-made quasi human creatures created from one cell.
Those creatures were an organism that looked like bacteria. And the primordial bacterium was in fact, the first life-form on planet earth.
Those creatures-forms (Quasi-humans) appeared as tiny mini-microscopic organisms that used chemical energy.

They did not need the sun to grow and develop via photosynthesis.
In fact, those early quasi-human forms existed long before photosynthesis developed on planet earth.
This explains the reason of their deformity, and horrific dysmorphic features (Dysmorphism).
Those creatures were Earth-made, and first appeared in Australia, Brazil, and Madagascar, not in Africa.
They were not created by God.

*** *** ***

**VII-The space-made human creatures**: Some of the very early human races were originally created in space. Their life started within the clay found inside comets.
The amazing aspect of this explanation is the fact that most recently, leading scientists and university professors in the United Kingdom have stated, that in fact, the inside of comets contains gluey material identical to heated clay.
Once this comet's clay is mixed with earth's water, it creates cells, molecules and membranes.
In other words: LIFE.
Thus, these humans or life-forms were not created by God.
Note: Recent probes inside comets show it is overwhelmingly likely that life began in space, according to a new research paper by Cardiff scientists.
Professor Chandra Wickramasinghe and colleagues at the Cardiff Centre for Astrobiology have long argued the case for panspermia – the theory that life began inside comets and then spread to habitable planets across the galaxy.
The BBC Horizon documentary traced the development of the theory. Now the team claims that findings from space probes sent to investigate passing comets reveal how the first organisms could have started.
**VIII-Metabolism and the oceans-made human creatures:** The Anunnaki's matrix also revealed the existence and origin of early human-like creatures who lived at the bottom of the oceans.

The Ulema explained that one of the earliest life-forms on planet earth began at the very bottom of the oceans, where metabolism originated. Metabolism created an early human-like form.

Those creatures had a human skull, two eyes without retina, two legs and four long arms, but no nose, no ears, and no hair on their bodies.

They were called the Basharma'h. (Bashar means human race, and Ma'h means water.) Later on in history, these two words were added to several ancient Near and Middle East languages; Mem in Hebrew, Mayim in ancient Aramaic; Ma' or Maay in Arabic, etc…) **IX-Man-made humans and reverse engineering of the human brain**: The Ulema said that the Anunnaki's matrix revealed frightening American scientific progress rotating around the creation of human brain, and the implant of these man-made brains in machines capable of influencing and altering humanity' future and mankind's destiny.

# An-Hayya’h, “A-haYA”, “Aelef-hayat”.

_____

Ana’kh/Ulemite.

An-Hayya’h could be the most important word in the whole literature of the Anunnaki and Ana’kh, because it deals with: **1**-The origin of man on earth; **2**-How humans are connected to the Anunnaki; **3**-Importance of water vis-à-vis humans and Anunnaki; **4**-The life of humans; **5**-Proof that it was a non-terrestrial woman who created man, Adam and the human race via her Anunnaki identity; **6**-The return of the Anunnaki to earth; **7**-Humanity salvation, hopes, and a better future for all of us; “a gift from our ancestors and creators, the Anunnaki,” said the Ulema.

It is extremely difficult to find the proper and accurate word or words in our terrestrial languages and vocabularies.

The word **“**An-Hayya’h” is composed of: **1**-An or A (Pronounced Aa), or Aelef (Pronounced a’leff).

It is the same letter in Ana’kh**,** Akkadian, Canaanite, Babylonian, Assyrian, Ugaritic, Phoenician, Moabite, Siloam, Samaritan, Lachish, Hebrew, Aramaic, Nabataean-Aramaic, Syriac, and Arabic.

All these languages are derived from the Ana’kh.

(Note: The early Greeks adopted the Phoenician Alphabet, and the Latin and Cyrillic came from the Greek.

The Hebrew, Aramaic and Greek scripts all came from the Phoenician.

Arabic and most of Indian scriptures came from the Aramaic. The entire Western world received its languages from the Phoenicians, the descendants of the Anunnaki.) An means one or all of the following:

- **1**-Beginning;
- **2**-The very first;
- **3**-The ultimate;

- **4**-The origin;
- **5**-Water.

On Earth, this word became Alef in Phoenician, Aramaic, Hebrew, Syriac and Arabic. Alef is the beginning of the alphabet in these languages.
In Latin, it's A, and in Greek is Alpha.
In Hebrew, the Aleph consists of two yuds (Pronounced Yood)**;** one Yud is situated to the upper right and the other yud to the lower left.
**Water links humans to the Anunnaki.**
Both Yuds are joined by a diagonal *vav***.** They represent the higher water and the lower water, and between them the heaven. This mystic-kabalistic interpretation was given to us by Rabbi Isaac Luria.
Water is extremely important in all the sacred scriptures, as well as in the vast literature and scripts of extraterrestrials and Anunnaki.
In the Babylonian account of the Creation, Tablet 1 illustrates Apsu (Male), representing the primeval fresh water, and Tiamat (Female), the primeval salt water.
These were the parents of the gods. Apsu and Tiamat begat Lahmu (Lakhmu) and Lahamu (Lakhamu) deities.
In the Torah, the word water was mentioned in the first day of the creation of the world: "And the spirit of God hovered over the surface of the water."
In the Chassidut, the higher water is "wet" and "warm", and represents the closeness to Yahweh (God), and it brings happiness to man.
The lower water is "cold", and brings unhappiness because it separates us from Yahweh (God), and man feels lonely and abandoned. The Ten Commandments commences with the letter Alef**: "**Anochi (I) am God your God who has taken you out of the land of Egypt, out of the house of bondage."
The letter Alef holds the secret of man, his creation and the whole universe (Midrash).
In Hebrew, the numeric value of Aleph is 1.

And the meaning is:

- **1**-First;
- **2**-Adonai;
- **3**-Leader;
- **4**-Strength;
- **5**-Ox;
- **6**-Bull;
- **7**-Thousand;
- **8**-To teach.

According to Jewish teaching, each Hebrew letter is a spiritual force and power by itself, and comes directly from Yahweh (God). This force contains the raw material for the creation of the world and man. The Word of God ranges from the Aleph (The very first letter) to the Tav (The last letter) in Hebrew.

In Revelation 1:8, Jesus said:

- “I am Alpha and Omega, the beginning and the ending.”
- In John 1:1-3, as the Word becomes Jesus, the Lord Jesus is also the Aleph and the Tav, as well as the Alpha and the Omega.

In Him exist all the forces, and spiritual powers of the creation.

Jesus is also connected to water, an essential substance for the purification of the body and the soul, this is why Christians got to be baptized in water.

In Islam, water is primordial and considered as the major force of the creation of the universe.

The Prophet Mohammad said (From the Quran): “Wa Khalaknah Lakoum min al Ma’i, koula chay en hay”, meaning: And WE (Allah) have created for you from water everything alive.”

The Islamic numeric/spiritual value of Aleph and God is 1.

To the Anunnaki and many extraterrestrial civilizations, the An or Alef represents number 1, as well as planet Ashtari, the constellation Orion, the star Aldebaran, and above all

the female aspect of the creation symbolized in the Anunnaki's female "Gb'r" (Angel Gabriel to us.) Hayya'h also means:

- **a**-Life;
- **b**-Creation;
- **c**-Humans;
- **d**-Earth.

In Arabic, Hebrew, Aramaic, Turkish, Syriac, and so many Eastern languages, the Anunnaki words "Hayya'h" and "Hayat" mean the same thing: Life.

But the most striking part of our story is that the original name of Eve is not Eve, but "Hawwa" derived directly from Hayya How do we know this?

Very simple: Eve's name in the Bible is "Hawwa", also "Chevvah".

In the Quran is also "Hawwa", and in all the Semitic and Akkadian texts, Eve is called Hawwa or Hayat, meaning the giver of life; the source of the creation.

Now, if we combine the 2 words: An +Hayya'h or Hayat, we get this: Beginning; The very first; The ultimate; The origin; Water + Life; Creation; Humans; Earth, where the first was created; Woman.

And the whole meaning becomes: The origin of the creation and first thing or person who created the life of humans was a woman (Eve; Hawwa) or water.

**Eve (Hawwa) was created first NOT Man.**

Eve (Amazingly enough, in Ana'kh, woman and water mean the same thing, because woman as a creative female energy represents water according to the Babylonian, Sumerians and Anunnaki tablets, as clearly written in the Babylonian-Sumerian account of the Creation, Tablet 1.

The Anunnaki who created us genetically some 65,000 B.C. lived on earth with us, in Iraq (Sumer, Mesopotamia, Babylon) and Lebanon (Loubnan, Phoenicia, Phinikia).

They taught our ancestors how to write, how to speak, how to play music, how to build temples, how to navigate, as

well as geometry, algebra, metallurgy, irrigation, astronomy, you name it.
But the human races disappointed them, for the early human beings were cruel, violent, greedy and ungrateful.
So, the Anunnaki gave up on us and left earth.
The few remaining Anunnaki living in Iraq and Lebanon were killed by savage military legions from Greece, Turkey and other nations of the region. The Anunnaki left Earth for good.
Other extraterrestrial races came to earth, but these celestial visitors were not friendly and considerate like our ancestors the Anunnaki.
The new extraterrestrials had a different plan for humanity, and their agenda included abduction of women and children, animal mutilation, genetic experiments on human beings, creating a new hybrid race, etc…
The Anunnaki did not totally forget us. After all, many of their women were married to humans, and many of our women were married to Anunnaki.
Ancient history, the Bible, Sumerian tablets, Akkadian cylinders, Babylonian scriptures, Phoenician inscriptions, and historical accounts from around the globe recorded these events.
You can find them, almost intact, in archeological sites in Iraq and Lebanon, as well as in museums, particularly the British Museum, the Iraqi Museum and the Lebanese Museum.
So, before leaving us, the Anunnaki activated in our cells the infinitesimally invisible multimicroscopic gene of An-Hayya’h. It was implanted in our organism and became a vital composition of our DNA.
Humans are not yet aware of this, as we were not aware of the existence of our DNA for thousands of years.
As our medicine, science and technology advance, we will be able one day to discover that miniscule, invisible,

undetectable An- Hayya’h, exactly as we have discovered our DNA.
An-Hayya’h cannot be detected yet in our laboratories.
It is way beyond our reach and our comprehension.
It is extremely powerful, because it is the very source of our existence.
Through An-Hayya’h, the Anunnaki remained in touch with us, even though we are not aware of it. It is linked directly to a Conduit and to a Miraya (Monitor, or mirror) on Ashtari.
Every single human being on the face of the earth is linked to the outer-world of the Anunnaki through An-Hayya’h. And it is faster than the speed of light.
It reaches the Anunnaki through Babs (Star gates).
For now, we will call it molecule or bubble.
This molecule travels the universe and reaches the Miraya of the Anunnaki through a Conduit integrated in our genes and our brain’s cells by the Anunnaki some 65,000 years ago. But what is a Conduit?
Does every human possess a Conduit?
The answer is yes.
All humans have a Conduit just like the Anunnaki, because it is part of our DNA. It is impossible to explain how a Conduit works inside the human brain, and/or how it works for a human being.
The creation of the Conduit is the most important procedure done for each Anunnaki’s student on the first day of his or her entrance into a learning center in Ashtari.
A new identity is created for each Anunnaki’s student by the development of a new pathway in his or her mind, connecting the student to the rest of the Anunnaki’s psyche.
Simultaneously, the cells check with the other copy of the mind and body of the Anunnaki student, to make sure that the Double and the other copy of the mind and body of the student are totally clean. During this phase, the Anunnaki’s

student temporarily loses his or her memory, for a very short time.
This is how the telepathic faculty is developed, or enhanced in everyone.
It is necessary, since to serve the total community of the Anunnaki, the individual program inside each Anunnaki's student is immediately shared with everybody.
The Anunnaki have two kinds of intelligence:

- **1**-Collective intelligence that belongs to the community.
- **2**-Individual intelligence that belongs to one person.

Both intelligences are directly connected to two things:

- **1**-The first is the access to the Community Depot of Knowledge that any Anunnaki can tap in and update and acquire additional knowledge.
- **2**-The second is an individual prevention shield, also referred to as personal privacy.

This means that an Anunnaki can switch on and off his/her direct link to other Anunnaki.
By establishing the Screen or Filter an Anunnaki can block others from either communication with him or her, or simply prevent others from reading personal thoughts.
Filter, Screen and Shield are interchangeably used to describe the privacy protection device.
In addition, an Anunnaki can program telepathy and set it up on chosen channels, exactly as we turn on our radio set and select the station we wish to listen to. Telepathy has several frequency, channels and stations.
When the establishment of the Conduit is complete, the student leaves the conic cell, where the procedure has taken place, and heads to the classroom.

**How does an Anunnaki receive the content of a Conduit to allow him/her to watch over us?**

Through the Miraya (See Miraya to learn how it works).
The Anunnaki created the Conduit, the Miraya and the An-Hayya'h to watch over us, even though we do not deserve

it, said the Ulema.
The Anunnaki have been watching us, monitoring our activities, listening to our voices, witnessing our wars, brutality, greed and indifference toward each other for centuries.
But they did not interfere. But now, they will, because they fear two things that could destroy earth and annihilate the human race:

- **1**-The domination of earth and the human race by the Greys;
- **2**-The destruction of human life and planet Earth on the hands of humans.

The whole earth could blow up.
Should this happen, the whole solar system could be destroyed.
For we know, should anything happen to the moon, the earth will cease to exist. This is an absolute truth and a fact accepted by all scientists.
So anything that could happen to earth will disrupt the solar system, said the Ulema **An-Hayya'h is our umbilical cord.**
An-Hayya'h is our umbilical cord, our birth cord that attaches us to the Anunnaki. Some refer to it as the "Silver Chord".
No matter how silly and crazy this concept might look to many of us, one day, we will accept and possibly we might understand its mind-boggling mysteries, when our science, technology and mind explore wider dimensions, and reach a higher level of cosmic awareness and intelligence, added the Ulema.
Farid Tayarah said: "An-Hayya'h will always be there for you to use before you depart this earth. It will never go away, because it is part of you. Without it you couldn't exist.
Just before you die, your brain out of the blue wills activate it for you."

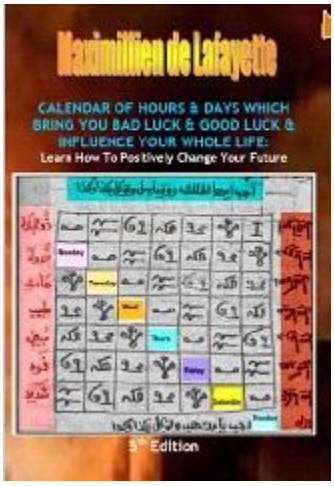
**Calendar of Hours & Days Which Bring You Bad Luck & Good Luck: How to Positively Change your Future**



Maximillien de Lafayette
CALENDAR OF HOURS & DAYS WHICH BRING YOU BAD LUCK & GOOD LUCK & INFLUENCE YOUR WHOLE LIFE:
Learn How To Positively Change Your Future
5th Edition

What is luck?

Merriam-Webster’s definition of “Luck”: a- A force that brings good fortune or adversity.
b- The events or circumstances that operate for or against an individual.
But what is that “force” that brings good fortune or adversity? And how events or circumstances “operate” for or against an individual?
Merriam-Webster does not provide an explanation.
There is a force that shapes and conditions luck; it is the force of the Maktoob, meaning what it is already written in the “Kitbu Dounia”, meaning the book of our life, the book of our fate; the book of our destiny.
And how do we explain the mode of operation of events or circumstances that work for us or against us?
The mode of operation of what constitutes “Luck” is always conditioned by unseen metaphysical factors, only known to the Anunnaki Ulema and Sahiriin.
Basically, these factors include:

Factors which influence your future and luck: • Maktoob.
The fluctuation of the “Grid of Calendar” of the good hours and bad hours in our lives: Rizmanah. The calendar of hours and days of your life which bring you good luck and bad luck.

• Some hours are positive, others negative.
Kharta-Makan, which means your zone. In other words, where you live; the location of your home, office, and other places you have lived at and/or you shall occupy in the future.

Ismu, which means your name. It is very true that your name plays a paramount role on the landscape of your luck, future, success and failures.
In summary, time, places and even your name are part of the scenario of the film of your life on the screen of your existence on Earth, and beyond. The Enlightened Masters don’t believe in coincidence (s). They have told us that everything in our lives happened for a reason. There are reasons we fully understand as the consequences of our deeds, acts and decisions. And there are reasons we don’t understand. Are they caused by others?
Are they dictated by fate? Can we change the results, outcome and consequences of these reasons, and alter their effect on our lives, success, happiness, and failure? Yes, we can to a certain degree. This book will show you how!

The book includes:
* Factors which influence your future and luck
* The influence of the Anunnaki's programming of our brain and fate: A rare lecture on luck
* How to read Shashat; the screen of the unknown
* Rizmanah; Discover the calendar of your bad luck and good luck
* Learn how to remove your bad luck
* Learn how to create a good luck
* Daily chart/calendar of your good hours and bad hours in your life
* What to do and not to do during these hours and these days
* Best hours and best days, worst hours and worst days for
* Employees
* Booksellers

Official Handbook of the American Federation of Certified Psychics and Medium
TIMES SQUARE PRESS

This book will show you and teach you how to become an effective and accomplished energy healer, and provide you with lessons, practical training, and step-by-step instructions on how to use the Healing Touch, find, learn, develop esoteric Energy Healing techniques which produce astonishing supernatural and paranormal results; techniques and know-how which were shrouded in secrecy for thousands of years; they are herewith introduced to the readers and the lightworkers as part of the curriculum and training/orientation programs of the American Federation of Certified Psychics and Mediums.The present work deals with energy healing and not faith healing, for faith healing belongs to strong religious beliefs, angels' interaction and a multitude of factors which don't fit in the scenario of scientific and metaphysical healing, and don't relate to the contents of this book. Thus, the study, exploration, training, and techniques as presented in this book pertain exclusively to bio-organic, mental-physical, and the extra-dimensional energy, emanated from the human body and the human mind, which can be revealed and detected in the laboratory, as

well as in the immediate physical effects on the physical body, and our environment.

To become an effective energy healer, the practitioner must fully understand:
• 1-The nature of energy. In other words, what is energy? And how it works?
• 2-Sources and levels of energy.
• 3-How does energy (Bad or good) affect the mind and the body?
• 4-Techniques for animating and activating the practitioner's energy.
• 5-How does energy appear to those who can see it?
• 6-The meaning of colors of energy.
• 6- How to block negative vibes.
• 7- How to stop attracting negative people to your life.
• 8- How to discover the energy of the mind and the body
• 9- How to find energy's good days and bad days, and
• energy's good hours and the bad hours.
• 10- Ousoul; the universe's rules and the rhythm of the Micro Wheel and Macro Wheel.
• 11-How to reverse the flux of bad energy, bad days, and bad hours.
• 12- Mintaka Difaya: Protecting your zone.
• 13- The healing touch technique and mechanism, including the prerequisites and preparation.

The present work answers all those questions, and provides pragmatic techniques which enable the lightworker and practitioner to become an effective energy healer and master of the healing touch.

**THE ESSENTIAL MAXIMILLIEN DE LAFAYETTE: The Official Anunnaki Ulema Textbook for the Teacher and the Student. In 2 Volumes**

THE ESSENTIAL MAXIMILLIEN DE LAFAYETTE is a synopsis of the 200 books, the author wrote on the subjects of the Anunnaki, the afterlife, the supernatural powers of the Anunnaki Ulema, the paranormal, the occult, parallel dimensions, multiple universes, the Conduit, the Supersymetric Mind, the Double, the Astral Body, communications with spirits and entities from the world beyond, the power of the mind, mediumship, channeling, the enlightenment, the Fourth Dimension, the Fifth Dimension, Earth energy, healing, the world outside time and space, extraterrestrials, time-travel, reading the future, and similar topics. This is NOT a repetitious book. It was intentionally compiled from the most important concepts, theories, esoteric techniques, wisdom, Eastern philosophy,

the world of the mystic seers “The Ulema”, and particularly the teaching of Maximillien de Lafayette.
This series consists of 2 massive volumes, each exceeding 700 pages (50 MB). This manual is also the Official Anunnaki Ulema Textbook for the Teacher and the Student. De Lafayette wrote more than 800 books, 200 of them are in these fields. Consequently, it is quasi-impossible for the reader to purchase all these books. The present work contains knowledge, techniques and revelations, no other author has ever discussed, simply because they emerge from the teachings of the author’s Enlightened Masters and his own philosophy. Add to the fact, that no other author or researcher has ever approached these topics, simply because they were brought to the West, for the first time in history, from the author’s own vision and perspective. You will NOT find the material of this book in any other work, and/or in any library. As a matter of fact, the material of the present work (Volumes 1 and 2) is to a certain degree in sharp contrast with what it has been said or written in these fields. No one can claim that this book was inspired by or based upon any existing published book. It is a journey to new dimensions, and analysis of the physical and mental worlds as interpreted personally by the author.
